** DXCC: ZP: Paraguay ; square GG22; start 2012-07-07 **

Greetings from Paraguay,

I apologize for the need to change my operation, but family obligations
make it necessary.

I will not be on the air on Saturday July 7, but will be QRV from 0220z
(moonrise) on July 9 (my Sunday night) for several hours. QRG should be
144.131 and I will transmit first. I will be on the N0UK logger for
information.

I hope to hear all of you better with the new preamp!

This will be my last day to operate before returning to the U. S. for
six months. However, on my return to Paraguay in February I plan to be
active on EME on both 144 and 432 mHz from Asuncion.

Looking for many of you on Saturday...

73 de Steve ZP9EH

Peter PA3BIY traveling through OH & SM with 2m station.

"From July 9th till the 31st we will be travelling in the Nordic countries for
a Holiday. However, I will have some 2 m equipment with me, and try to activate a
few squares along the route via MS. These are the provisional dates where I might
be active from the following locations:
July 12-16: KP43
July 16-18: KP46
July 21-22: KP07
July 23-24: KP03

In KP07 I may have the chance to be QRV from Dundret mountain, which has a magnificent
take-off towards the south.
During the trip I will try to be active on KST to announce my plans, but can't promise
anything! And as I will be travelling together with my XYL, Ham radio may not always
have first priority ;-) .

Equipment home made, 9 el. tonna and 400W
Hope to cu many of you on 2 m,

Peter, PA3BIY

FRENCH SPECIAL EVENT: This year 2012 is the 70th anniversary of the FRENCH ARMY SIGNAL CORPS .

Starting July 12th until July 15th, in Paris, among the festivities of the French 14 Juillet,
will be held a special ham event from a very rare location .
>From the 3rd floor of the Tour Eiffel (about 300 m over ground), some Hams, all Servicemen,
will be active, 24h a day. The crew consists namely of : Philippe/F5SKW, Dimitri/F5SWB,
Freddy/F5IRO,
David/F8CRS and Yves-Michel/ F5PRU. Some of them were operators in the past at TO4E or FT5GA.
The callsign claimed is TM70TRS, but it could be also TM70TE
The activity is scheduled on CW, SSB and RTTY, HF & VHF bands (Grid Locator JN18DU)
A special QSL card to confirm your QSO?s will be available from the F6KHX ARC or from Didier/F5OGL,
both either direct or via the French bureau.

Special notice for those who are able to receive the French TF1 TV Network programmes ;

A French TF1 TV Network technician?s team managed by the journalist Anne-Claire Coudray, has made a
movie, showing the operators when preparing the station, for the operation, on last June 19th.
This movie will be included in the July 14th, morning (utc+2) , French Forces parade on the Champs
Elys?, TV report. Have fun and luck.

** DXCC: D6: Comoros; start 2012-08-01 **

Hi all

It?s just 6 weeks before the expedition and I promised to keep you informed.
These are our last news: We will arrive to Comoros on August 8^th and we will
be qrv on 6 meters from the following day, August 9^th until the 20^th .
We will run a dedicated station with K3 + pr6 preamp, ACOM1000, and a 6m8gj antenna.
QRV cw, ssb, digi modes (jt65a, iscat and jt6m) and EME . We will run a breakable beacon
on cw or jt65a. We hope to have internet access and will be on on4kst chats.
QTH will be LH18PJ just at sea side. By now we have got the license for
HF and 6 meters and flight tickets are already booked.

Schedule is as follows:
8/8 arrive to qth
9/8 install 6m station
First windows:
9/8 MR at 21.10Z
9/8 MS at 09.00Z
Last windows:
19/8 MS at 16:40Z
20/8 MR at 05:05Z
20/8 pack 6m station and return home
MR will be looking to mountains in the island about 200 meters high at 2 Km, will see how it works.
MS will be looking to the sea, expecting good ground gain and low noise.
We don?t have any particular frequency, usually I will TX first on 193.
We will have elevation when moon is higher than 20 degrees. We expect to run about three hours
before/after MS/MR, and use the rest of diurnal time for terrestrial modes. Of course, if F2/TEP
opens it will have priority, sorry, I think you will understand us.

Hope to work all you from D64K
